

The background of the slide is a repeating pattern of green dollar bills falling from the top. The bills are stylized with a white dollar sign in a circle and are shown in various orientations, some fully visible and others partially cut off by the edges of the frame.

Text genre and participant role alternations in the French Spending frame

jimlaw@byu.edu

Constructional alternations

Dative alternation

- *Bill sold a car to Tom. ~ Bill sold Tom a car.*

Passive alternation

- *Bill sold a car. ~ A car was sold (by Bill).*

Causative/Inchoative alternation

- *Janet broke the cup. ~ The cup broke.*

Constructional alternations

more active voice

more passive voice

concrete, casual content
informal style

abstract, technical content
informal style

Constructional change

NCI construction:

X (be) said/believed/seen to be...

(compare ACI: *Y say/believe/see X to be...*)

**The NCI in News, Science, and Medical Texts vs. other
Genres in the British Component of the ARCHER**

	18th C	19th C	20th C	TOTAL
news + science + medicine	27	60	76	163
other	10	16	9	35
TOTAL	37	76	85	198

Participant role alternations

The president's goal is to stimulate the economy.

(Agent)

The goal **of the tax cut** is to stimulate the economy.

(Means)

The goal **of the bill** is to stimulate the economy.

(Medium)

“**The president's** goal in supporting **the tax cut** proposed in **the bill** is to stimulate the economy.”

What grammatical and textual factors condition participant role alternations?

Has this variation contributed to constructional change over time?

FR_Spending

[All annotations of this frame](#) [Lexical Unit Index](#)

Domains: Commercial_transactions

Definition:

This frame involves a **Spender** paying **Money**, possibly either in order to accomplish a **Purpose**, get some **Goods**, or because of a certain **Cause_of_expense**. For some LUs, the origin of the expense is expressed as the worker providing labor instead of the goods (FR: frais de vétérinaire), hence the **Seller** FE.

Distinctions with other frames:

≠ [FR_Giving_money](#) : in the FR_Spending, the Recipient cannot be locally expressed.

Relation to fndata-1.5 New in ASFALDA.

Core FEs:

Cause_of_expense [Causex] The situation that causes the **Spender** spending some **Money**.
Semantic Type: State_of_affairs FR-EX: **L'avantage fiscal accordé** **COUTERA** 3 milliards.

Goods [Gds] The FE Goods is anything (including labor or time, for example) which is exchanged for Money in a transaction.
FR-EX: Le gouvernement a **DÉPENSÉ** près de 3 milliards de dollars en **infrastructures rurales**

Money [Mny] Money is what is spent, potentially in order to accomplish the **Purpose** or acquire

The French Spending frame

• *Le coût des matériaux est énorme.*

(Goods)

‘The cost of materials is enormous.’

• *Le coût de l’opération est énorme.*

(Purpose)

‘The cost of the operation is enormous.’

• *Le coût de la main-d’œuvre est énorme.*

(Seller)

‘The cost of labor (workers) is enormous.’

• *Le coût des retards est énorme.*

(Cause of Expense)

‘The cost of the delays is enormous.’

Grammatical category

le pain est CHER .

‘[_{Goods} Bread] is **expensive**.’

Est - il étrange que s’ agissant d’ acquérir un si grand trésor il semble d’ abord nous devoir coûter bien CHER?

‘Is it strange that when it comes to [_{Purpose} acquiring such a great treasure] it seems at first to necessarily cost [_{Spender} us] **very dearly**?’

Purpose (decrease over time)

1243:

Al prin diémence d' aoust , a grant baudorie et **grant COUST** ,
vinrent et i et autre à Rains .DNI

'The first Sunday of August, at great speed and [_{Money} great **cost**], they both [_{Purpose} came to Reims].'

1864:

Et afin qu' il en ignore , je lui ai , en parlant comme ci - dessus ,
laissé **la présente copie , dont le COÛT** est **de cinq francs ,**
quatre - vingt - dix centimes .INI

'And so he may be unaware, I have, in speaking as above, left him [_{Goods} the present copy, of which] the **cost** is [_{Money} five francs, ninety cents].'

Purpose (decrease over time)

1399:

Qant li signeur et li grant baron de France, qui en la compagnie dou duc de Normendie estoient, furent venu devant Agillon, il regarderent premierement et comsiderent que il ne pooient parvenir a la forterece, se il ne passoient la riviere, qui est large, longe et parfonde, et lor convenoit faire un pont pour le passer.

Si ordonna et conmanda li dus que **li pons fust fais**, **quoique** il **COUSTAST** **.DNI**

‘When the lord and the grand baron of France, who were in the company of the duke of Normandy, had come before Aguillon, they looked first and reckoned that they could not reach the fortress without crossing the river, which is wide, long and deep, and they needed to make a bridge to cross it. So the duke ordered and commanded that [_{Purpose} the bridge be built],

16 [_{Money} whatever] it **cost**.’

Cause of expense (increase over time)

Mon dieu , que **d'argent DÉPENSÉ** **par l' infidélité ou la négligence des valets!** **DNI**

'My god, nothing but [_{Money} money] **spent** [_{Cause of expense} by the infidelity or the negligence of servants]!

Je dis , par intérêt pour les coffres de **l' Etat** , que **ses naissances périodiques** grèveraient d' **un DÉBOURSÉ** **annuel trop considérable** .

'I say, out of interest for [_{Spender} the State]'s coffers, that [_{Cause of expense} her periodic births] would cause a strain of [_{Money} an overly large annual **expenditure**].'

Cause of expense (increase over time)

Il s' emparait de la palette , s' amusant à voir rangés en rond
dessus les petits entortillements de pâte , qu' il touchait du doigt
avec respect (sachant que **la couleur** est **CHÈRE**).**INI**

'He took hold of the palette, enjoying seeing the little swirls of paint, that he touched with his finger respectfully (knowing that [Goods paint] is [Money **expensive**]).'

Ainsi , depuis , elle supprima **l'impôt ONÉREUX** sur le tabac ;
et ces deux denrées , le tabac et le sel , devinrent un objet de
commerce .**INI**

'So, since then, she canceled the [Money **costly**] [Cause of expense tax] on tobacco; and these two commodities, tobacco and salt, became an object of commerce.'

Summary

- Participant role alternations (e.g. Spending frame alternation) vs other argument alternations (e.g. passive, dative alternations)
- Factors in lexical variation: grammatical category, constructional change, sentiment
